

UNIVERSITY OF
LINCOLN

Generic Teaching Space Standard Operating Procedure Student version

**Version 3.0 Date 16.09.21
September 2021**

1. Purpose of this document

In response to the Covid-19 pandemic, a number of safety measures have been introduced to minimise the risk to students and staff whilst engaging in teaching and learning on campus.

This document should be used by users of teaching spaces to advise you of the procedures in place for the academic year 21/22 and the measures that must be adhered to in order to ensure the safety of all.

The measures included within this document are based on the current government guidance and guidance provided by the World Health Organisation. Information may change as new instructions are issued by the Department of Health & Social Care and Department of Education specific to Higher Education establishments.

This document is generic and should be used in conjunction with the relevant building specific risk assessment and user guide, existing teaching space risk assessments or any other local risk assessment that apply to the type of teaching taking place. Specialist teaching activities such as labs, practicals and studio delivery will have individual risk assessments and SOP which build on the information in this document. Please listen carefully to any additional instructions you are given whilst on campus.

2.0 General principles

PLEASE READ AND ADHERE TO THE FOLLOWING PROCEDURES:

- If you think you may have any of the symptoms associated with the Covid-19 infection, stay at home, book and take a test, inform the University Covid Test & Trace Team and follow government advice. <https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/#symptoms>
- When opening/closing doors or operating light switches, always decontaminate hands immediately afterwards with hand sanitiser
- Before you leave a teaching building, wash your hands with soap and water or use the hand sanitiser provided as you exit
- If you require first aid support, please follow the standard local procedures
- You must report any issues with these new processes or if they are not being followed by others. If processes are not working well for you then please speak to a member of staff.

YOU MUST NOT ENTER THE BUILDING IF:

- You have any [symptoms of coronavirus](#) (a high temperature, a new, continuous cough or a loss or change to your sense of smell or taste).
- You've tested positive for coronavirus – this means you have coronavirus.
- You live or attended a teaching session with someone who has symptoms or has tested positive, unless you have been double vaccinated in the UK (or with a UK Government approved vaccine (see: [COVID-19 vaccines if you live abroad - GOV.UK \(www.gov.uk\)](#)).
- [You're told to self-isolate by NHS Test and Trace.](#)
- You arrive in the UK from a country with a high coronavirus risk – see [GOV.UK: how to self-isolate when you travel to the UK.](#)

3. Risk assessments

- This document should be used in conjunction with existing relevant risk assessments and SOPs to the teaching space being used, and any other local risk assessments and SOPs that are specific to each teaching session

4. Operational procedures within standard (seminar type) teaching spaces

Principles around organisation:

- Teaching rooms will be set out with standard student furniture layouts. Teaching lecterns/positions will be set out with a minimum of two metres spacing from students.
- All staff and students should wear a face covering whilst in University buildings and teaching spaces. In some specialist teaching sessions alternative PPE will be used as per a specialist SOP. Limited supplies of face coverings will be available in teaching rooms for those who may have forgotten to bring their own.
- Some staff and students may be exempt from wearing a face covering and in these cases a visor should be worn
- Where there are accessibility requirements (e.g. lip-reading requirements) a visor should be worn by the tutor. Individual accessibility requirements will be assessed by Student Wellbeing or Human Resources, and a local plan developed.
- Any shared equipment should be disinfected as per the local SOP.
- Furniture can be moved during sessions but must be replaced in its original position before leaving the room.
- Sessions are timetabled for an allocated time block and session leads should allow 10 minutes at the end of the slot for cleaning and student movement.

Entering and leaving the building (in addition to any building specific requirements):

- Apply your face covering before entering the building
- Upon entering the building, sanitise your hands at one of the sanitising points near the entrance, or visit the washroom and thoroughly wash your hands with soap and water for 20 seconds. Sanitise your hands regularly where appropriate during the day.
- Upon entering the building individuals should make their way to the timetabled space. Please arrive on time to avoid queuing outside rooms.
- Follow any one-way systems in place for the building.
- Please avoid using the lifts in buildings unless necessary
- Where there are multiple entrances to teaching spaces follow the signage or guidance of staff members who will identify the entrance and exit points that you should use.

Entering the classroom/teaching space (NB Additional requirements as per specialist teaching SOPs).

- Ensure face covering is in place
- Use disinfectant wipes from sanitisation station to wipe down desk, chair, any shared equipment (such as keyboard).
- Sanitise hands.
- Exchange face covering for visor if required (tutor).
- Get seated
- Maintain fresh air flow during the session by keeping doors and/or windows open if practical to do so
- The session lead is responsible for keeping an electronic record of student attendance at each session. Codes will be issued as per the attendance monitoring system. Please use the code to register your attendance and remind your session lead if it is not provided at the start of the session

At end of session, to leave the classroom/teaching space (NB Additional requirements as per specialist teaching SOPs).

- Ensure furniture, if moved, is cleaned and returned to original position.

- Sanitise hands.
- Clean visor (if used) and replace in bag, replace face covering if necessary.
- Remind each other of protocol as necessary.

At the start of your first session with a new group, the tutor leading the session will discuss this protocol with you and ensure you can ask any questions. Students are reminded that through the Community Living Charter, signed on (re) enrolment, students promise to adhere to any instructions around Covid Safety. If you have any concerns please discuss them with your personal tutor in the first instance.

Students who are exempt from wearing a face covering and/or visor in these circumstances should either confirm this to their tutor at the time using their exemption card or wear the appropriate lanyard which can be obtained from Student Support and indicates their exemption status. Students may wish to contact their tutor prior to the session.

(N.B. Exemption cards can be downloaded and completed via the [government website](#))

5. Contact tracing

Please ensure that your contact details held on your University record are up to date. This will enable the University to contact individuals if Public Health implement the Outbreak Control Protocol, which *may* require individuals in the same teaching session (and/or residence) as someone who has developed symptoms or tested positive to self-isolate. The Public Health Outbreak Control Protocol will be imposed upon the University and it will not matter if an individual has been vaccinated or not – everyone shall have to comply with Public Health instructions

6. Emergencies and First Aid

In an emergency, first aiders will be issued with full face protection PPE.

On hearing the fire alarm, immediately report to the designated assembly point and obey instructions from the Fire Marshall or Security Staff as necessary. On no account are persons to leave the assembly point without informing the Fire Marshall, or to re-enter the building until the Fire Co-ordinator has given such clearance.

All building exit procedures should be followed in the event of an emergency. On hearing the first alarm all occupants **MUST** ignore Covid-19 one way systems and signs that have yellow backgrounds & black lettering as well as Red 'Do not enter' signs that are fixed to fire escape routes and exits, and exit the building as quickly as possible, via the nearest exit.

These procedures are in place to protect us. We are One Community and we must support and protect each other by following these instructions. Please speak to your personal tutor if you have any questions or concerns.
