**Letter of commitment to the priorities of the Concordat for the Environmental Sustainability of Research and Innovation Practice**

I, Neal Juster on behalf of the University of Lincoln, confirm our commitment to the priority areas outlined in the Concordat for the Environmental Sustainability of Research and Innovation Practice.

The University of Lincoln fully supports the priority areas outlined in the concordat. We will deliver against all the priorities in practice and recognise our responsibilities as a signatory, as set out in the concordat.

By signing this Concordat we recognise the need to change how we conduct research and innovation as well as promote wider solutions. We also agree to take shared action now and into the future to reduce and eliminate our own environmental impacts and emissions and achieve the transition to sustainable practices.

We are fully committed to delivering excellence in research and we will continue to drive research that will positively impact on the sustainable development of our region and future generations to come.

This Commitment aligns with our Research and Knowledge Exchange Strategy and Environmental Sustainability Strategy.

Yours sincerely,

**Neal Juster**  
**Vice Chancellor**  
**University of Lincoln**
