The Financial Regulations is a key document that governs the way that the University manages its financial affairs. Apart from certain specific requirements, it is a principles-based document that refers to supporting policies and procedures that provide more detailed guidance.

It is impossible for the Financial Regulations and supporting policies and procedures to cover each and every scenario that an individual may encounter. The financial guiding principles set out above provide high-level guidance. If there is no reference to a specific circumstance, then adherence to these principles will ensure that officers and employees are acting in a proper and appropriate manner.
1 General

1.1 Introduction

1.1.1 The University is a higher education corporation created under the provisions of the Education Reform Act 1988, as amended by the Further and Higher Education Act 1992. Its structure of governance is laid down in the Instrument and Articles of Government. The Instrument of Government can only be amended by legislation and the Articles of Government by the Privy Council. The University is accountable through its Board of Governors, which has ultimate responsibility for overseeing its activities and securing its solvency.

1.1.2 The University of Lincoln is an exempt charity with the charitable objects of providing higher education and further education, and of carrying out research and publishing the results. The members of the Board of Governors, who include the Vice Chancellor and staff and student members, are the trustees of the charity.

1.1.3 The University is regulated by the Office for Students (OfS) as the principal regulator of English Higher Education Institutions. The University also receives grant funding from the OfS. The terms and conditions of funding for higher education institutions between OfS and the University sets out the terms and conditions on which grant is made. The Board of Governors is responsible for ensuring that conditions of grant are met. As part of this process the University must adhere to the OfS Audit Code of Practice, which requires the University to have sound systems of financial and management control.

1.1.4 The Board of Governors is responsible for the effective and efficient use of resources, the solvency of the University and the Corporation and for the safeguarding of assets. The Financial Regulations of the University form part of the overall system of accountability and financial management and control in support of these responsibilities.

1.2 Status of the Financial Regulations

1.2.1 These Financial Regulations have been approved by the Board of Governors and are mandatory. Officers and employees are required to apply and abide by these regulations to ensure that the University operates with integrity and in accordance with the terms and conditions of funding for higher education institutions between OfS and the University.

1.2.2 The Financial Regulations are subordinate to the University’s Articles of Government. They are also subordinate to any restrictions contained within the terms and conditions of funding for higher education institutions between OfS and the University.

1.2.3 The Financial Regulations apply to the University and all subsidiary undertakings. In these Financial Regulations, where relevant, the term ‘University’ includes the University and all subsidiary companies under the control of the University.

1.2.4 The Chief Financial Officer will review the regulations annually and propose any amendments to the Board of Governors, via Audit Committee.
1.2.5 Unless stated otherwise, all amounts quoted in these Financial Regulations are inclusive of VAT, where VAT is applicable.

1.2.6 In the event that the Chief Financial Officer post is vacant or the postholder is absent from the University, the Chief Operating Officer shall be authorised to undertake all duties assigned to the Chief Financial Officer within these Financial Regulations.

1.2.7 In the event that the Chief Financial Officer post is vacant and the University appoints an interim Head of Finance, who is not a member of the Senior Leadership Team, then certain tasks may delegated to the Head of Finance as detailed in the Scheme of Delegated Financial Authorities in Appendix A.

1.3 **Responsibility for Compliance**

1.3.1 Compliance with the Financial Regulations is compulsory for all officers and employees of the University.

1.3.2 Officers and employees include all University staff members on a permanent or fixed term employment contract.

1.3.3 It is the responsibility of all officers and employees to read and understand the Financial Regulations and underpinning policies and procedures.

1.3.4 Any officer or employee who fails to comply with the Financial Regulations may be subject to disciplinary action under the University Disciplinary Policy and Procedure.

1.3.5 The Financial Regulations also apply to all temporary employees and contractors working at, or on behalf of, the University who carry out activities that fall within the scope of the Financial Regulations. It is the responsibility of all Head of Colleges and Heads of Professional Services to ensure that any temporary employee or contractor operating under their responsibility reads and adheres to the Financial Regulations where relevant and applicable to the services they are providing.

1.3.6 In exceptional circumstances, the Chief Financial Officer may authorise a temporary departure from the detailed provisions within the Financial Regulations to a limit of £25,000. The form in Appendix B should be completed when requesting a temporary waiver of the regulations. Any authorised departures shall be reported to the Chair of Audit Committee.

1.3.7 Any departure from the Financial Regulations involving an amount greater than £25,000 requires prior approval of the Chair of the Board of Governors (or, if absent, the Deputy Chair) and shall be reported to Audit Committee.
1.4 **Scheme of Delegated Financial Authorities**

1.4.1 The purpose of the Scheme of Delegated Financial Authorities is to provide clarity as to who is authorised to conduct financial transactions on behalf of the University. The scheme is to ensure efficient day-to-day working whilst minimising the risk of fraud, error and inappropriate commercial transactions.

1.4.2 The Scheme of Delegated Financial Authorities is set out in detail in Appendix A.

1.4.3 Within the Scheme of Delegated Authorities, and as applicable throughout these Financial Regulations, the term ‘Budget Holders’ includes all officers and employees with direct budget responsibility, along with those who have been delegated authority to control budgets.

1.4.4 The following principles underpin all decisions taken within the Scheme:

- The person to whom the authority has been delegated should only make decisions within their own area of responsibility. That is, one Budget Holder should not take a decision that commits another Budget Holder without their consent.
- Where sub-delegation takes place this may only be delegated down one tier (as set out in Appendix A). This must be granted in writing and may take place on a permanent or temporary basis.
- Financial decisions should only be taken when the relevant University Policies and Procedures have been followed.
- Where a third party has provided funding, decisions should only be taken when the relevant funding body’s regulations have been followed.
- All approval documentation must always be retained.

1.4.5 The following financial decisions can never be delegated and always vest with the Board of Governors:

- To approve the University budget and financial plans
- To approve the annual Financial Statements
- To appoint the University bankers
- To appoint the internal and external auditors
- To approve the Treasury Management Policy

1 SLT Leads are responsible for creating an appropriate scheme of delegation within their areas based on operational need, local structures and risk. This must be discussed and agreed with the Finance Department and approved by the Chief Financial Officer.

2 The approval of the purchase requisition by the Procurement Team confirms that the appropriate procurement processes have been followed in respect of the purchase. It does not approve the business need for the purchase.
